

# Dot

## Technical Data

- ↔ Width ————— 1500 mm
- ↗ Length ————— 2374 mm
- 📦 Weight ————— 250 kg
- ⚡ Power supply ————— 230 VAC
- 🔌 Power consumption — 0,75/1 Kw

## The starting point of smart wrapping.

**DOT** represents the **essence of simplicity** in pallet wrapping, designed for occasional use and low production volumes. With its inverter-controlled turntable and external potentiometer, **DOT** allows smooth and fully adjustable operation, while its industrial-grade footswitch ensures hands-free control. Whether you are using hand film or a shrink gun, **DOT** is the **smart, accessible starting point** for **professional wrapping**.

## THE STARTING POINT OF SMART WRAPPING.

### Main Specifications

- SIEMENS V20 inverter
- Max load: **1200 kg**
- External potentiometer for speed adjustment
- Industrial footswitch
- Powder coated frame
- **2-year warranty**

### Main options

- **1650 mm** turntable
- Ramp (800/1000 mm)
- Ramp brackets
- Film clip
- Pit frame
- Braked turntable at end of cycle

Pizzato – industrial footswitch

External potentiometer for turntable's speed adjustment
