

Volta-T

Technical Data

- ↑ ↓ Height ————— 2580 mm
- 📦 Max load ————— 1200 kg
- ⚡ Power supply ————— 230 VAC
- 🔌 Power consumption — 0,75/1 Kw

The power of wrapping in tight spaces.

Volta-T is designed for **facilities** where space is limited but performance is non-negotiable. The **open-frame** T-shaped turntable allows easy access for pallet jacks without ramps, saving floor space while **maximizing efficiency**.

With the All Shortcuts (AS) control board and a complete range of optional features, Volta-T delivers **smart solutions** for demanding logistics operations.

Volta-T

THE POWER OF WRAPPING IN TIGHT SPACES.

Main Specifications

- Max pallet height: **2500 mm**
- Electromagnetic brake
- Frequency-controlled turntable & carriage
- Photocell detection
- Safety stop
- Dual belt lifting
- 6 working cycles
- All shortcuts PCB

Main options

- Power pre-stretch
- Auto cut-off
- Dark load photocell
- Safety fences
- Weighing system

Twin-belt safety system

High performance PPS carriage

All shortcuts electronic board
