

Volta

Technical Data

↕ Height	2580 mm
↔ Width	1500 mm
↗ Length	2865 mm
📦 Weight	420 kg
⚡ Power supply	230 VAC
🔌 Power consumption	0,75/1 Kw

Wrapping Freedom, Your Way.

Volta was **created for businesses** that need **flexibility** and full control over their end-of-line packaging process. With its advanced All Shortcuts (AS) electronic board, Volta ensures intuitive handling and easy adjustment of all key parameters.

Whether you handle standard pallets or challenging loads, **Volta** adapts to your needs with **precision and speed**, simplifying even the most complex wrapping cycles.

Volta WRAPPING FREEDOM, YOUR WAY.

Main Specifications

- Max pallet height: **2500 mm**
- Max load: **1200 kg**
- Frequency-controlled carriage & turntable
- Electromagnetic brake
- Photocell detection
- Safety stop
- Dual belt lifting
- 6 working cycles
- All shortcuts PCB

Main options

- Power pre-stretch
- Auto cut-off
- Twin motor PPS
- Roping system
- Top press
- Custom wrapping heights
- Weighing system
- Pit frame

Twin-belt safety system

High performance PPS carriage
